

BOYS & GIRLS CLUBS OF GREATER MILWAUKEE

GRADUATION PLUS College Access & Success Services

Boys & Girls Clubs is grateful to the colleges that make higher education affordable and attainable for hard-working, low-income, first-generation students by offering scholarship support specifically for our members. The arrangements between Boys & Girls Clubs and these universities are mutually beneficial, creating opportunities for post-secondary institutions to attract motivated students and strengthen the pipeline of local talent while growing on-campus diversity. In addition, Club members gain access to premier education opportunities that foster life-long success.

To learn how your institution can partner with Boys & Girls Clubs to offer scholarship support to some of Milwaukee's most talented students, contact Andre Douglas at 414-267-8143 or Andre.Douglas@bgcmilwaukee.org.

Maxwell Dixon is a junior at Marquette University majoring in engineering. Through his hard work and dedication in high school and his involvement in our Grad Plus BMO Scholars Program, Maxwell earned a full ride scholarship for college. As a collegian member of Grad Plus, Maxwell continues his involvement as a volunteer tutor for club members, participates in professional development and advising with Grad Plus, and has earned an engineering internship at Rexnord.

"Supporting Boys & Girls Clubs of Greater Milwaukee members is an absolute win for Marquette's campus community. Boys & Girls Clubs has consistently worked with some of the best and brightest students

coming out of the Milwaukee area, and we are lucky to have so many of their members on our campus. Club members win because of the opportunities our institution can provide them. Marquette University wins because we create the opportunity to keep home grown talent at home."

Latrice Harris-Collins

Director of High School Recruitment,
Undergraduate Admissions
